EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The amendment was necessary to bring the claims into compliance with 35 U.S.C. 101.

2. The application has been amended as follows:

In claim 278 line 1, --embodied on a computer readable medium-- was inserted after "program".

In claim 278 line 5, "and wherein the software program is executable on a computer readable medium" was deleted.

Allowable Subject Matter

3. Claims 278-284, 286, 288-292, and 443-448 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record Kachel fails to teach or fairly suggest using activating light to cure the lens forming composition to produce an eyeglass lens. Kachel uses activating light to cure the lens coating. However, a coating for an eyeglass lens is not the same as a lens forming composition used for producing an eyeglass lens, per the

claimed invention. It is this feature that distinguishes the claimed invention over Kachel, in combination with the remaining features and elements of the claimed invention.

Additionally, the rejection based on Powers et al. US 6,228,289 has been withdrawn since Applicant has provided evidence in this file showing that the invention was owned by, or subject to an obligation of assignment to, the same entity as US 6,228,289 at the time this invention was made, or was subject to a joint research agreement at the time this invention was made.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
